Parking:

Watch out for signs noting spaces reserved for Admissions, and do not park here. Thank you.

Most companies pay/reimburse their employees for parking related to recruiting visits. We do appreciate this. If you are in need of hosted parking by the University, please alert Career Employer Engagement staff or your host at least 48 business hours prior to your arrival date.

After parking in a visitor ramp, before you leave your car, make note of your license plate number and proceed to the pay station.

- At the pay station, enter your license plate number and enter the length of time you plan to park.
