

FIELD TO FORK: HOW UST PEACE ENGINEERING IS CHANGING OUR WORLD

SAVE THE DATE!

WHEN: May 9th, 4:30 reception,
5:00 program

WHERE: McNeely Room 100,
UST St. Paul campus

WHAT: 10th Anniversary of UST
Peace Engineering

The University of St. Thomas School of Engineering is celebrating the 10th anniversary of Peace Engineering with an informative, fun event to get people talking about how Peace Engineering is affecting lives globally and at St. Thomas! The event will feature the UST premiere showing of *Field to Fork*, a documentary about Dr. Camille George's work to engineer the post-harvest processing of breadfruit in Haiti. Dr. George will speak about the project and the future of Peace Engineering at St. Thomas. We would like to thank the supporters of this project.
